

“I’m Beth, I am a current student on the S.A.L.S. programme in partnership with MMU.

I initially decided to apply for the school direct programme because I wanted to have lots of experience in a classroom setting that would equip me for when I begin my role as an NQT. Since I have started, I have developed a great relationship with my class mentor and I have gained invaluable experience of teaching in a KSI setting. Receiving regular feedback from my class mentor has helped me to grow into a confident teacher and has given me new ideas on how to improve. In addition, I have created great relationships with the other students on my course and we are all in contact to support one another. I am glad I chose to be part of S.A.L.S.”
